Subject: Mail for Undine Kipka, Pat Bird or Eric Wortman re: South Fork windfarm air permit

Hi John,

I'm writing to double-check if the air permits branch received any physical mail about the revised draft air permit for the South Fork windfarm. The second public notice period for the revised draft air permit ran from October 20 through December 6, 2021, and if we got anything by mail, I would have expected it in the last two weeks or so. We've been asking for electronic comments, and I'm not aware that anyone needed to submit via hardcopy, but it's possible that they did. We used my mailing address below my signature in the public notice documents.

Thanks in advance for your help! Hope you're getting a great start to the holiday season.

Undine
